

How to make your own Festival Costumes

PARENTAL
SUPERVISION
REQUIRED

To make your own mask and capes you require the following:-

PVC adhesive

Tracing paper

Pencil

Beads for eyes

Different coloured felts

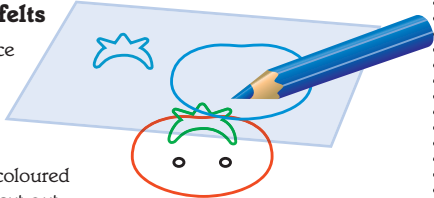

Some elastic

Needle and cotton

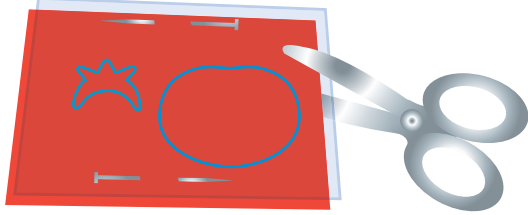

2 pins

Small sharp scissors

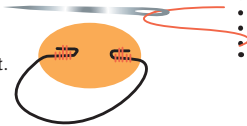

1. The first thing is to trace out the vegetable pattern you wish to make.

2. Pin the pattern to the coloured felt you wish to use and cut out.

3. Sew a 50mm length of elastic to the small oval felt cut out. Double the elastic back on itself as shown to ensure it does not pull out.

4. Sew the eye beads in position.

5. Cover work area with old newspaper to protect work surface. Using a little PVC adhesive, stick all the parts of the mask together and leave to dry out fully.

6. Trace out the cape shape.

7. Pin the trace to your felt and cut out.

8. Cut a small button hole on one side and sew a bead on the other.
